THEME: HORROR MOVIES

Presentation :

The workshop les Gabares n°2 will take place in the Rideau de Fer Gallery in Castelfranc, a small village of the Lot (46140).

Castelfranc is 25 km from Cahors the main city of this region, it is on the Lot river and has a history dating back to the 13th century.

The exhibition space is composed of two rooms one large (>6m high) space and a vaulted «cave» as well as a garden.

The theme for this year is « horror movies » at large. The goal of this workshop is not to create a horror movie, although this can be a possibility. Rather, we want to explore the vast universe of « horror » as a whole, down to the minute elements and contexts that constitute it. Whether it be the roots of horror movies in the pioneering work of Méliès, or the highly political backdrop of 1960's horror, as well as the clear influences of mythology, Japanese Ukiyo-e, etc. All of these and many more are potent subjects for experimentation. The aim is to produce atmospheres, costumes, sound, sets, stories, myths and more, reminiscent of what has become a staple genre of cinema. Each artist is invited to interpret « horror » using their own medium, in order to create a hybrid whole.
